JUNGLE ANIMALS!

A Coloring Adventure

40 animal scenes to make your own

For ages 3–9

Big imaginations. Wild colors.
Let your jungle adventure begin!

A note for grown-ups

Choose a scene that suits your child.

Some pictures are simple; others have more details.

Crayons and colored pencils work well.

If using markers, place a protective sheet behind

the picture. Blank backs do not stop ink soaking through.

Each animal is shown in its own forest habitat.

These playful illustrations are imaginative, not field guides.

Children can use real animal colors or invent new ones!

Jungle Animals! • First edition
